Kasamsan Rintorn

E-COMMERCE PRODUCT PHOTOGRAPHER

PROFILE

Experienced in photographing 3,000+ products, covering composition, studio lighting, post-production and image file management. Currently handles the full workflow independently, from product check-out and photography to image selection, retouching and website upload. Background in video editing and graphic design.

EXPERIENCE

Photographer at CRC Thai Watsadu Co., Ltd.

Omni Channel Content · Merchandise · Feb 2025 – Present

- Photographed products in 360° view on Orbitvu AlphaStudio for e-commerce platforms and online stores.
- Shot product images for the graphic design team to use in packaging and promotional banners.
- Set up studio lighting and composition for each product category, keeping image quality consistent with brand standards.
- Post-production: clipping and retouching.
- Reviewed final images to ensure they met quality and platform requirements.
- Analyzed product and sales data to improve product content.
- Coordinated with the graphic design and purchasing teams and other departments, including product check-out and return with branch stock.
- Built PowerShell scripts to automate file renaming and batch processing, reducing work time; prepared daily production reports.
- Developed an internal web application with AI-assisted coding, giving the team one tool to track and manage daily photography workflow.

Camera Assistant (Contract) at JSL Global Media

Technical Team · TV Production · Oct 2020 – Jul 2022

- Set up studio layouts and ran camera, video and signal cables for TV productions.
- Set up cameras and white balance before each shoot.
- Shot audience insert footage in the studio.
- Supported the technical team throughout production.
